MORE INTEREST SHOWN IN CORN

Oats Show No Particular Activity-The "Clique" Still Cutting Quite a Figure in October Pork-Cattle Slow.

#### CHICAGO PRODUCE MARKETS,

CHICAGO, Och. 25 .- [Special Telegram to THE BEE. ]-The wheat market was steady at considerable improvement in prices and with only a fair business done in futures. Cables came in weak for spot wheat and futures were represented as displaying declining tendencies. New York had news to report on both sides, but the drift of intelligence from that place was bearish in its influence. One dispatch was sent out from there that twenty boat loads had been taken and another named thirty boat loads as the quantity. These reports were denied and found few believers. It was stoutly maintained by persons usually correct that there not only hadn't been any export business worth mentioning, but that there was nothing that looked like genuine inquiry by foreigners for wheat at anything like the prices now ruling. At the same time it is not true that there is not a good trade in both for home and foreign account. The seaboard clearances of flour and wheat were equally about 2,000 bushels to-day, and western millers have orders ahead as a rule for all the flour they can grind. One sale of 10,000 barrels was reported from Milwaukee to-day, and offers accepted for 9,000 barrels more. Minneapohs and St. Louis mills are having all they can attend to. The receipts at primary points are stightly below the recent average total, but the movement in the northwest, so far as it can be judged from the receipts at Minneapolis and Duluth, is not letting up to any appreciable extent. Arrivals there to-day footed up 491,000 bushels, and to-morrow's estimate is for over 800 cars. An estimate of 2,000 cars for Monday was affoat, but was voted as too premature to be reliable. The receipts at Chicago amounted to 206 cars, of which 85 cars were of contract grade. In spite of the heavy receipts the northwestern markets are hold-ing very well. Duluth receded 3/c, but at Minneapolis No. 1 northern was in active demand at 76(2/6)/c. There were two other items of news that cut some figure perhaps. The first and most important is the continuance of rains through the southwest and a gradual extension of the rain east of the Mississippi. The second was the report that Dodge had revised his Oc-tober estimate, making the production less than on the 10th. The foundation of the latter report may probably be found in the issuance of a printed October report, from which somebody has been able to figure re-sults slightly at variance with the original bulletin. Locally the speculative market was not particularly interesting. Hutchnson and Lindblom were the most conspicuous buyers and led on that side. The selling was more generally distributed than the buying, though as conclusions show the buying side was the most influential. December opened wat the most influential. December opened at 75% c, advanced by easy and quiet stages to 80% c, receded about noon to 79% c again, and during the last hour recovered the lost ground and established a little gain over the previous figures, going to 80% c and closing at the top. May started in with sales at % c range. The first official quotation was 83% c, but there were few sales as low as 83% c. The market then official quotation was 83%c, but there were few sales as low as 83%c. The market then advanced to 83%c83%c, receding to 83%c, but climbing subsequently to 84c, which was the closing price. The feature of trading, as far as anything was developed, was the relatively greater strength of May, which now commands a premium of 3%c over December. Inquiry for May was especially active.

There was more interest in corn than has ced strength in near deliveries, with May sharing in a lesser degree the general firmness. The re-ceipts were thirty-one cars under the quantity figured on yesterday, but the canal arrivals of 11,800 bushels came near filling the gap. The out-inspection was, however, heavy, amounting to 413,676 bushels, but of this quantity not one bushel was of straight No. 2 grade. Export clearances were liberal and foreign markets were quoted firm, although the latest quotations from Liverpool were 14d lower than reported on the day be-fore. The present moderate receipts and prevailing rains are features which were chiefly responsible for the firmness which occurred, more especially in near deliveries. A general breaking up of country roads will further currial the receipts and wat or days further curtail the receipts and wet or damp weather would make No. 2 corn from the were and possibly in November should those weather conditions last well into the next month. The short interest bought rather freely and offerings were light. November started at 81c, or %c over its closing price started at 31c, or 3c over its closing price yesterday, and it advanced to 313cc, closing at 313c, or 3c higher than on the day before. May opened at 33@333cc, advanced 4c more to 334c and closed at 31%c, or 3cc higher than on the day before. May opened at 33@33cc, advanced 4c up to 334c and closed at 35%@334c.

Outs were in no particular active, with a fair business done in futures at a shade firmer prices, while cash lots were dull and weaker than future deliveries, as gilt edge receipts dated to-day were offered at 18@184c. The early firmness in extended de-

18) c. The early firmness in extended de-liveries was due chiefly to the influence exerted by the strength of corn, and May sold at 21%@21%c, with quietude prevailing later, January sold at 19%@19%c. October sold at 18c and No. 2 oats to go to store at that fig-

ure.

The clique are still under pork. That, at least, is the opinion held by a majority of the provision dealers. They were buying both October and November to-day, and although October and November to-day, and atthough prices for deliveries beyond October were allowed to ease off a little during the forencon, October presented a steady and firm front at around \$10.70@10.75, or about yesterday's closing. There was scarcely a doubt that the parties interested will carry the deal into November. That future is sellthe deal into November. That future is selling at 30@35c premium over January, and the normal difference is fully that much the other way. Intrinsically November is worth no more than year, and it closed to-day at a premium of 55c per harrel over the latter. The packing crowd, including Swift, Ar-mour and Underwood, were fair sellers of pork, and Baldwin sold quite a line of January, supposed to be long stuff. Hutchinson was a fair buyer of all the active futures.

After siding off 755@1252c in early dealings, the market rallied and held steady with a firm undertone until the close. Lard ruled quiet and averaged a shade stronger, there being no features in this branch of trade and only a moderate speculative business. Rib fu-tures were also reported good and prices steady. At the six leading points to-day the arrivals were 7,000 head larger than on the corresponding day in 1888. Liverpool reported lard dull, with prices ½c lower for both spot and futures. Bacon was steady and in fair demand. The New York market and in thir demand. The New York market for lard was stronger. A rather less urgent shipping demand for the product has existed for the past two or three days. Based on yester by sclosing quotations for futures, October and November pork closed 5c higher, year 10c higher and January unchanged. Lard closed 2½@5c higher all around, November and January ribs 2½c higher, and October ribs 10c lower.

## CHICAGO LIVE STOCK

CHICAGO, Oct. 25 .- [Special Telegram to THE BEE.]-CATTLE - The receipts were divided at 5,000 natives, 3,500 Texans and 2,500 rangers. Business was slow and prices on native steers about the same as yesterday, with best selling early and other classes dragging along all day. Buyers were complaining of the poor quality of rangers, yet the Keystone cattle sold at \$3.40. They also complained of the poor quality of the Texans, yet there was little or no change in values as compared with yesterday. Native butchers' stock, especially old cows and canners, may be quoted a shade lower. There was less activity in the stocker and feeder

THE SPECULATIVE MARKETS

trade, but prices show no particular changes. Choice to extra beeves, \$4.50@4.95; medium to good steers, 1,350 to 1,500 lbs., \$4.00@4.60; 1,200 to 1,350 lbs., \$3.50@4.25; good to 1,200 to 1,350 lbs., \$3.50@4.25; good to 1,200 to 1,200 lbs., \$3.00@3.90; stockers and feeders, \$1.95@2.85; cows, bulls and mixed, \$1.00@2.90; bulk, \$2.00@3.20. Texas steers, \$2.20@3.40; cows, \$1.50@2.10; western rangers, \$2.50@3.80; cows, \$2.00@2.50.

Hogs-Husiness was brisk, with a slight

ers, \$2.50(38.80); cows, \$2.00(32.50.)

Hoos—Business was brisk, with a slight bulge early in the Rock Island and Burling ton divisions. The Northwestern division received the largest number and there the market was the weakest, yet values even there were fully as strong as yesterday. Late sales, however, in all divisions were a shade lower than at the opening. Packers pand \$3.90(@4.00 and shippers \$4.02\cdot @4.12\cdot \_1.12\cdot \_1.12

#### FINANCIAL

NEW YORK, Oct. 25 - | Special Telegram to THE BEE. |-STOCKS - The stock market opened active and steady, and shortly became feverish and unsettled. There was nothing definite in the talk of the street late or early. There appeared to be a general disposition to wait rather than force the movement. The bear talk about Villard being dangerously sick was not well founded, although he is kept at home by illness. In trading this morning there was a stubborn resistance to any advance, and Chicago bear houses supplied the market. First prices showed a difference from last evening's figures extending to % per cent, either way, while Northern Pacific was exceptional with a decline of % per cent. The general list was quiet to dull, but Union Pacific, Missouri Pacific, and Louisville & Nashville, among the stocks of the regular list, and Sugar Refineries and Cotton Oil among the trusts were active and gave to the dealings what character they possessed. Sugar was the feature of the market, being very irregular and feverish. After opening at 7214 it declined to 71%, but then rose 1 per cent, from which point it rapidly declined to 71. The general list advanced slowly and gains ranged up to 14 per cent, but the drop in Sugar checked the advance and some recession was made, though a firmer tone was afterwards shown. During the hour to noon the improvement was quite general. Sugar, after touching 70%, recovered quickly to 72, Cotton Oil rose a point from the opening to 43%, and Chicago Gas sold at 55. Coal stocks moved up uniformly 14 per cent, and Grangers showed %@% per cent gain over the close last night. Louisville, Lake Shore and Northern Pacific preferred were irregular and inclined to weakness. This proved to be a good day on the buying side of stocks. Not only were railway stocks firm to the close at very flattering advances, but trusts recovered from the early nervousness and weakness and closed materially higher for the day. During the closing hours the shorts saw that the forces were against them and they turned in as buyers, but not without being plucked somewhat. The net gains for the day were from 1 to 2 per cent, railway shares showing the most activity. Northern Pacific preferred, Atchison, St. Paul, Union Pacific and Missouri Pacific gained 1 per cent each, and Northwestern 114, Rock Island 134c and Lackawanna 2 per cent. Chicago Gas also gained 2 per cent to 5616c at the close. The earnings of all the roads reporting were most excellent. Money was easier at 4@6 per cent. The outlook is much improved. The

ŝ	total sales were 221,409	shares.

### OMAHA LIVE STOCK.

1.87%.

Cattle.

Friday, Oct. 25. Cattle sold steady again to-day, although Chicago was reporting an easier market. So long as the receipts of beeves, especially good beeves, continue in such light supply it s no easy matter for the buyers to gain a re duction even if eastern markets are lower. The trade was fairly active and the best cattle were picked up in good season. Native beeves sold at \$3.40@4.15, and westerns at \$2.70, and Texans at \$2.25@2.65. Native ows brought \$1.40@2.25 and a few westerns brought \$1.70. Stockers and feeders, if any thing, sold a little more briskly than yester day. The supply was not large and the demand pretty good. Natives brought \$2.30@ 2.75 and westerns \$2.50.

Hogs. The market opened fairly active and a very considerable proportion of the early receipts was soon sold. The prices paid were a shade stronger than yesterday. Although a good many hogs had to sell at \$3.80, the same

as yesterday, there were a good many loads at \$3.85, and as high as \$3.873\( \) was for some. Toward the last the market off and closed with the advance lost.	s paid

52 steers, Wyo-Tex ... 1101 2 25

22 steers, Wyo-Tex ...1126 2 30

Live Stock Notes. John Wallwork, a buyer for the Omaha

59....329 80 3 8734

Packing company, has returned from a trip to Kansas City on business for his house. Thomas Andrews came in from Cambridge with a car of hogs.

H. Walworth was over from Atlantic, Ia., with a car of hogs.

M. Mackey, a regular and extensive Eustis shipper, marketed a car of hogs.

J. C. Arbuckle, Atwood, Kan., put in ap-

pearance with a car of cattle. The Nye-Wilson-Morehouse Co. had hogs on the market from Clearwater and Cornlea. John Koup came down from St. Edwards with a car of cattle of his own feeding. West Point was represented by F. Romberg, who came in with a car of hogs for S. B. Shephard & Co.

Yesterday's shipments were very light, only eight loads of feeders being sent out only eight loads of feeders being sent out into the country.

The quality of the hogs is gradually improving—better than at this time last year.—
Daily Trade Bulletin.

Stockmen from South Dakota are sending large bunches of cattle and sheep over into Nebraska to be wintered on account of short-age of corn and hav over there which were greatly damaged by drouth.—Daily Stock Dealer.
